

SONG SELECTION

You may pick as much of the music as you would like. I customize your playlists to incorporate the artists you want to hear and the songs you think your guests will want to dance to. All of my songs are the clean, edited versions, so you won't hear anything more explicit than what you would hear on the local radio stations. I normally do not play anything that most people would find cheesy or inappropriate (unless you specifically ask for it).

I also have many years of experience in knowing what songs work well, and I will do my best to select songs that get people dancing if the songs you choose aren't working.

Must Play Songs (optional)

List up to 10 songs, other than the ones listed on your timeline (see below).

Try To Play Songs (optional)

List as many as you would like.

Do Not Play Songs

Please list songs or artists that you think I would likely play (or that your guests would likely request).
